- NodeJS

Summary:

I'm a passionate self-taught developer, I am detail orientated, highly motivated, and always interested in learning new technologies.

Professional Development :

Colt Steele - Web Developer Bootcamp

The Complete 2019 Web Developer Udemmy Course

Modern Javascript from the Beginning

— Recent Projects —

- Oakfield Photography – <https://github.com/OwenM-Edwards/Oakfield-Photography>

* A wedding and family photography website created for a local business. I learned a lot about catering the design to the customers needs and refactoring the design until they were 100% happy with the result.

- Smart Brain - <https://github.com/OwenM-Edwards/smartBrain-imageScan>

* A React app using the Clarafai API to perform celebrity image detection. Created alongside the Udemmy Complete Web Developer Bootcamp 2019.

- Robo Friends- <https://github.com/OwenM-Edwards/Robo-Friends>

* A react app that uses the Robohash API to generate a random avatar from a user-name. Features sorting functionality.

- Keyborders- <https://github.com/OwenM-Edwards/Keyborders>

* A mock keyboard company website, built to practice simple layouts and responsive design.

— Education —

- Coleg Gwent – 2015 - 2016
Access to Higher Education

- Chepstow Comprehensive – 2006 - 2009

— Interests —

* Films, photography, strategy games, sci-fi novels, and classical history.
